

# SHE AWAKENS | COMMISSIONED ART PEICE

## Project overview

Client's vision: " The site is www.She-Awakens.com and is for woman's shamanic gatherings--so we really want the banner image to be powerful--as you can see form the one we choose....

The idea is to have stars reflected in the water from the sky--that is a big one for us, and perhaps a crescent moon to her left side somewhere...

We will be doing oracular work so the eyes in this graphic spoke to us--but this is Alex Grey's work so I imagine it is not possible to get permission to use....

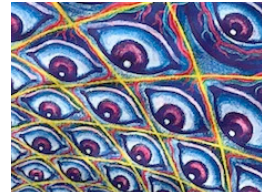

I also have the original image of the woman from the photographer himself that I can send for you to work with...

So here are some important things to us...

The woman is left raw and not covered in any way

The entire image be blue and deep, purple can come in but it must be deep

Definition on the stars please "

The goal was to provide the client a digital rendering showing a strong femle shamanic presence with particular attention to the head-dress, body paint and elements in the enviroment eg water, sky and the webbing in the stars.
